

# DATA QUALITY AUTOMATION

V 1.5

*"BiG EVAL helped us stabilize the quality of our data. They met all of our requirements in full: an uncomplicated and reasonably-priced introduction and a high level of integration in our DQM processes and infrastructure."*

**Helsana**

Günther Engeler  
Quality Assurance BICC

## A TESTING NET TO AUTOMATICALLY FIND AND RESOLVE DATA QUALITY ISSUES

Using the software solution BiG EVAL, customers throw testing nets like professional fishermen to systematically catch bad data. Times, where simple fishing rods were used to fish in the gloomy ocean of data are over. Thanks to the best practices test cases, clients of BiG EVAL achieve valuable results from the first day on. In fact they regain the control over their data quality.

VS.

From punctual and inefficient data quality issue fishing - to a systematic and professional testing net.
